PROFILE

Frontend Developer with the main focus on React.js. My main goal is to continue deepening my knowledge and skills in this area by learning best development practices and applying them in during my work. I also have experience working with other web development technologies such as HTML, CSS, and JavaScript, allowing me to create fully functional and interactive user interfaces.

I'm looking for a company that values its employees and provides conditions for professional and personal growth. I'm ready to invest effort in achieving the team's common goals and strive to create quality software that benefits users.

EMPLOYMENT HISTORY

Frontend Developer at Unit Space, Remote
January 2023 — January 2024
